

CIM640 Creative Coding
Final Project Proposal
Fall 2019
Jinqi Li

1) The name of your project

A Retro Rhythm Game

2) The name of the team members

Jinqi Li

3) A short description about what your program is about and how users can interact with it

It will be a simple rhythm game to let the user hit different buttons when different hints, which are based on the music, appear.

4) A weekly plan: specific tasks for each team member (who will be doing what to develop the app)

~ Nov 24	technical research, design prototype, start coding
~ Dec 1	coding, troubleshooting, first version (rough but workable)
~ Dec 8	polish the app, final version
